

Industrial Visit

Industrial visits provide an opportunity to students to interact with industry people. Industrial visit provide platform for the students.

The Srishti Innovative Computer Systems Pvt..Ltd at Techno park organized an industrial visit for the BCA Department on January 18, 2020.

36 students of BCA final year were taken to Srishti Innovative Computer Systems at Carnival Techno park. We started travelling from the college campus at 6.30 am via our college bus accompanied by two Staff members Sterose Mam and Arul Nijani Mam. The session starts 10.30 am. The session included the introduction to Latest Technologies, Opportunities available in IT industry for starting a bright career and Agile Methodology followed by an Organization. The session ends within a hour.

As reported by the students, they had an interactive session with the team facilitating this visit at Srishti Innovative Computer Systems, and they got the opportunity to ask their queries and gain insights on how they can choose their career.

They had in-depth learning session of Software testing and how software testing work in the real industry. The entire trip broadened the career scope of our

students and showed them variety of job possibilities. The treasured insights acquired during this Industrial Educational Tour will be valued and deployed whenever a future situation demands our knowledge about the same.
